BABY VIRGINIA IS TO HAVE HOME HERE OR IN RICHMOND, IND.

Child Left Alone by Mother's Suicide Will Be Cared For.

Little Virginia Petersen, the four year-old daughter of Mrs. Sarah Petersen, who committed suicide while in her apartment in the Riviera last Thursday, will have a suitable home provided for her, either in this city or in Richmand,

This announcement was made this morning by Dr. J. W. Pollock, dentist, with offices in the Ouray building, a brother of Mrs. Petersen. Dr. Pollock said that it probably would be several days before a definite decision would be reached members of his family regarding the disposition of the little girl.

"We are now waiting to hear from an aunt in Indiana, before determining what steps to take with regard to Virginia," said Dr. Pollock. "We expect that she will care for the little girl, but if she is unable to do so, I will provide for her myself."

Little Virginia is still being cared for at Casualty Hospital. Although not allowed to play in any of the halls or rooms of the hospital proper, she is permitted to romp at will in any section

of the nurses quarters.
"She's been the life of the place since her strival here Saturday," said one of the nurses this morning. "We surely

will miss her when the time comes to take her away."

One of the hospital physicians said this morning that he believed little Virginia is too young yet to comprehend the meaning of the death of her mother. On occasions she has cried, but the nurses have done all in their power to divert the child's attention with dolls and other playthings.

Tremendous success has attended the organization of the new Munyon "Hope Cult." Professor Munyon claims that he has secured more converts than he even anticipated, and says that his "Hope Cult" is growing in leaps and bounds. It is said that the total membership of the association throughout the United States is now well over the haif million mark.

In a statement for publication Prof. Munyon said:

"I want to talk to every sick, ailing and despondent person in this city. I want to preach my new creed to them. I want to tell them about my new philsophy of health, which is the fruit of a lifetime of study and experience in dealing with sick folk.

"I want to expound the Great Truth that I have learned that there is more curative power in an ounce of Hope than in pounds of Dope. That sick people should not take medicine except as a medium through which the great people should not take medicine except as a medium through which the great curative power of Hope may be made effective. Medicines are necessary in the present state of the world's progress because they give a patient physical support and strength and renewed vigor with which to brace up the will power. One knows, from the action of the proper medicines, that he or she is feeling better by this inspired hope and faith, which complete the cure.
